Description of the organisation

IES Sant Vicent Ferrer comprehends different levels of learning Secondary school, high school and VET. In high schools the institute offers instruction in the modalities of Natural Science and Health and Humanities and Social Sciences in addition IES Sant Vicent Ferrer has public VET education in Computer science, intermediate and high level, in its formative intermediate level (Microcomputer Systems and Networks is taught) and two specialties on higher degree (Management Information Systems Network and Web Application Development).

In addition there is a section of the Official Language School where English and French are taught.

In addition there is a section of the Official Language School where English and French are taught.

Programs implemented at IES Sant Vicent Ferrer:

- Multilingual program: From 2009/10 are applying a multilingual program at IES Sant Vicent Ferrer, in the subjects of Technology (3rd ESO), Monograph (4th), Contemporary World Studies (1 School) and in different subjects in VET. In these subjects teachers are using the CLIL methodology.

- European Portfolio of languages: From 2012/13 IES Sant Vicent Ferrer is enrolled in the program e-PEL (+14) of the Ministry of Education.

- Network of Educational Quality: From 2006/07 IES Sant Vicent Ferrer is part of the National Network of Public School for Educational Quality of the Ministry of Education in level II.

The Mission, Vision and Values:

Mission: To give students a comprehensive education, responding to society demands..

Vision: To be a socio-cultural and educational reference for students and families in the Valencia Region.

Values: Being secular, democratic, participative and multilingual public school.

About 1100 students attend our schools. We also have 75 teachers from all areas of expertise, 2 secretary assistants and 3 operational assistants.

Experience of the organization in previous European projects

IES Sant Vicent Ferrer works with a big network of enterprises in Valencian region and in different countries in Europe (UK, Italy, Portugal and Germany) on which VET students take workplace training

Teachers have a long experience in European cooperation and were involved in 10 European projects, most of aiming to the promotion of innovation in education with a focus on creativity and the integration of ICT. Four among the European projects in which IES Sant Vicent Ferrer was involved had the specific aim to prevent early school leaving , 2 in promoting employment using social media and interpairs training, 2 mobility projects for VET Students and 1 in using video games for motivating VET students.

IES Sant Vicent Ferrer has been the promoter of "yes employability" project aware like good practices project by the regional government

IES Sant Vicent Ferrer organizes one international conference each year, this conference is for working about ICT teaching and learning, more than 600 VET students, VET teachers, public bodies, enterprise and trade union attend, each of the events representing over 7 European countries in the five continents.

Nowadays is involved in two ka1 for VET ICT teachers and students.

Contributions that can be provided to the project

IES Sant Vicent Ferrer will be the project coordinator, assisted by Pixel

IES Sant Vicent Ferrer will participate in all activities of the project

Reasons of involvement in the project

The project it's very interesting for our VET school because one of our most important goals is the promotion of innovation in education with a focus on creativity and the integration of ICT and to help the VET students to find their first job in an effective way
